Opinion Statement

We conclude, that the Sustainability Report Review provides a fair view of Sustainability report programs and performances during 2025. We believe that the Sustainability report economic, social and environment performance indicators are accurate and are supported by robust internal verification processes.

Based on our work described in the verification report, nothing has come to our attention that causes us to believe that data and information stated in the Reporting Organization's Sustainability Report is not correctly presented or with omission, in any material respect or that Inclusivity, Materiality, Responsiveness and Impact based on AA1000 criteria are not correctly addressed.

Our work was carried out by a team of sustainability report assurers in accordance with the AA1000 Assurance Standard v3. We planned and performed this part of our work to obtain the necessary information and explanations we considered to provide sufficient evidence that Airports of Thailand Public Company Limited's description of their approach to AA1000 Assurance Standard and their self-declaration of compliance with the GRI standards were fairly stated.

Methodology

Our work was designed to gather evidence on which to base our conclusion. We undertook the following activities:

- a top-level review of issues raised by external parties that could be relevant to Airports of Thailand Public Company Limited's policies to provide a check on the appropriateness of statements made in the report.
- discussion with managers and staffs on Airports of Thailand Public Company Limited's approach to stakeholder engagement. However, we had no direct contact with external stakeholders.
- interviews with staffs involved in sustainability management, report preparation and provision of report information were carried out.
- review of key organizational developments.
- review of the findings of internal audits.
- review of supporting evidence for claims made in the reports.
- an assessment of the company's reporting and management processes concerning this reporting against the principles of Inclusivity, Materiality, Responsiveness and Impact as described in the AA1000 AccountAbility Principles Standard (2018).

Conclusion

A detailed review against the AA1000 AccountAbility Principles of Inclusivity, Materiality, Responsiveness, and Impact, as well as the GRI Standards is set out below:

Inclusivity

This report has reflected a fact that Airports of Thailand Public Company Limited is seeking the engagement of its stakeholders. The participation of stakeholders has been initiated in developing and achieving an accountable and strategic response to sustainability. The reporting systems are being developed to deliver the required information. There are fair reporting and disclosures for economic, social and environmental information in this report, so that appropriate planning and target-setting can be supported. In our professional opinion, the report covers Airports of Thailand Public Company Limited's inclusivity issues.

Materiality

Airports of Thailand Public Company Limited publishes sustainability information that enables its stakeholders to make informed judgments about the Company's management and performance. Through repeated discussions and brainstorming sessions, several sustainability issues were identified as a basis for quantitative evaluation. All participants in the meetings provided ratings for each issue, considering their impact on sustainable development. The ratings were then consolidated using a matrix to determine the overall significance of each issue. As a result, the material issues were prioritized based on their respective scores. In our professional opinion, the report adequately covers Airports of Thailand Public Company Limited's material issues.

Responsiveness

Airports of Thailand Public Company Limited has implemented the practice to respond to the expectations and perceptions of its stakeholders. An Ethical Policy for Airports of Thailand Public Company Limited is developed and provides the opportunity to further enhance Airports of Thailand Public Company Limited's responsiveness to stakeholder concerns. In our professional opinion, the report covers the Airports of Thailand Public Company Limited's responsiveness issues, however, the future report could be further enhanced by the following areas:

- Establishing a system to monitor the quantity of general waste generated and disposed of. This would improve the traceability, completeness, and accuracy of waste disclosures in accordance with GRI 306-3 and GRI 306-4.

Impact

Airports of Thailand Public Company Limited has demonstrated a process on identify impacts that encompass a range of environmental, social and governance topics, and fairly represented the impacts in the report. In our professional opinion, the report covers the Airports of Thailand Public Company Limited's impacts, however, the future report could be further enhanced by the following areas:

- Further strengthen the waste management approach to address the increasing volume of waste, particularly by promoting waste reduction at the source in accordance with the Reduce, Reuse, and Recycle (3Rs) principles. This would support effective waste management and improve alignment with the requirements of GRI 306-1 and GRI 306-2.

GRI-reporting

Airports of Thailand Public Company Limited provided us with their self-declaration of compliance within GRI Standards. Based on our review, we confirm that social responsibility and sustainable development indicators in accordance with the GRI standards (2021) are reported, partially reported or omitted. In our professional opinion, the self-declaration covers the Airports of Thailand Public Company Limited's social responsibility and sustainability issues.

Assurance level

The moderate level assurance provided is in accordance with AA1000 Assurance Standard v3 in our review, as defined by the scope and methodology described in this statement.

Responsibility

This Sustainability Report is the responsibility of the Airports of Thailand Public Company Limited's CEO as declared in her responsibility letter. Our responsibility is to provide an independent assurance opinion statement to stakeholders giving our professional opinion based on the scope and methodology described.
